

Job Title: Software Engineer

Department: Software Development

Location: London, UK

Reports To: Lead Software Engineer

Job Summary:

At TechBuild Solutions, we are seeking a passionate Software Engineer to join our innovative development team. You will design, develop, and maintain software applications that power our mission-critical systems. Collaborating with cross-functional teams, you will drive the creation of robust, scalable, and secure solutions to meet evolving business needs.

Responsibilities:

- Develop high-quality, maintainable software solutions using Python, Java, or C++.
- Collaborate with product managers and stakeholders to gather and analyze requirements.
- Design and implement RESTful APIs for system integrations.
- Write and maintain unit and integration tests to ensure software quality.
- Debug and troubleshoot complex technical issues in production environments.
- Stay up-to-date with the latest software development trends and tools.

Qualifications:

- **Education:** Bachelor's degree in Computer Science, Software Engineering, or a related field.
- **Experience:** 3+ years of software development experience in an agile environment.
- **Technical Skills:** Proficiency in Python, Java, or C++; experience with Git and CI/CD pipelines; knowledge of cloud platforms like AWS or GCP.
- **Soft Skills:** Strong problem-solving abilities, excellent communication skills, and a team-oriented mindset.

Preferred Skills:

- Experience with Docker and Kubernetes.
- Knowledge of microservices architecture.

Benefits:

- Competitive salary up to £75,000 annually.
- Comprehensive private healthcare plan.
- Remote work flexibility and a £1,000 home office stipend.
- Generous annual training and certification budget.

Company Overview:

TechBuild Solutions specializes in delivering cutting-edge software products for global

enterprises. Our inclusive work culture emphasizes innovation, collaboration, and career development.

How to Apply:

Submit your CV and cover letter to careers@techbuild.com by January 20th, 2025. Include "Software Engineer Application" in the subject line.
