

Job Title: Cloud Architect

Department: Cloud Engineering

Location: Birmingham, UK

Reports To: Director of Cloud Operations

Job Summary:

At CloudNova Solutions, we are seeking a Cloud Architect to design and implement cloud solutions that meet business objectives. You will define architecture standards, ensure security compliance, and optimize cloud systems for scalability.

Responsibilities:

- Design cloud infrastructure using AWS, Azure, or Google Cloud.
- Develop strategies for cloud migration and integration.
- Ensure security and compliance with industry standards.
- Monitor cloud performance and optimize costs.
- Provide technical guidance to engineering teams.

Qualifications:

- **Education:** Bachelor's degree in Cloud Computing, IT, or related discipline.
- **Experience:** 5+ years in cloud architecture or cloud engineering.
- **Technical Skills:** Expertise in AWS, Azure, or GCP; experience with Kubernetes and Terraform; understanding of cloud security protocols.
- **Soft Skills:** Strong leadership, problem-solving abilities, and effective communication.

Preferred Skills:

- Familiarity with multi-cloud strategies.
- Certification in AWS Solutions Architect or Azure Architect.

Benefits:

- Competitive salary up to £100,000 annually.
- Health insurance, wellness programs, and retirement benefits.
- Flexible work arrangements and a generous home office stipend.
- Professional development opportunities and cloud certifications.

Company Overview:

CloudNova Solutions specializes in delivering scalable and secure cloud solutions for global enterprises. Our inclusive culture fosters collaboration and innovation.

How to Apply:

Send your CV and cover letter to hr@cloudnova.com by April 15th, 2025, with "Cloud Architect Application" as the subject line.
